SUMMER OF DISCOVERY — 2018

The Planetarium presents an array of programs – both entertaining and educational – for all ages.

Daily show times: 12:00, 1:00, 2:00, 3:00 and 4:00.

12 PM ONE WORLD, ONE SKY
(Young children)
Elmo and Big Bird live in the United States and Hu Hu Zhu lives far away in China, but they discover that they see the same stars at night.

1 PM EARTH, MOON, AND SUN
(Families)
This show explores the relationship between the Earth, Moon and Sun with the help of Coyote, an amusing character adapted from Native American oral traditions, who has many misconceptions about Earth and its most familiar neighbors. Native American stories are used throughout the show to help distinguish between myths and science.

2 PM FROM EARTH TO THE UNIVERSE
(Adults, families)
Take a stunning voyage through time and space with dazzling imagery, including video shot from the International Space Station. Produced by the European Southern Observatory.

3 PM SUNSTRUCK!
(Middle School, adults)
Travel to the beginning of time and experience the birth of the Sun. Discover how it came to support life, how it threatens life as we know it, and how its energy will one day fade away. Funded by NASA.

3 PM STARS: POWERHOUSE OF THE UNIVERSE
(All ages)
Journey to the farthest reaches of the galaxy and experience both the awesome beauty and destructive power of Stars. New stars are created every day, born of vast clouds of gas and dust. Through every phase of their existence, stars release the energy that powers the Universe.

* If programs change, substituted show will be appropriate for same age group
ANIMAL EXPEDITION
10 AM, 11 AM, 12 PM, 1 PM AND 2 PM SESSIONS
45-minute program
Accommodates up to 60 people per session
